

DATA SHEET

Product Name:	Alpha-Synuclein, N15 Uniform Labeled
Catalog #:	S-1004
Source:	Recombinant. A DNA sequence encoding the human alpha-synuclein sequence was expressed in E. coli, with N15 as the nitrogen source.
Molecular Mass:	14,624
Protein Purity:	>95% by SDS-PAGE and Mass Spec.
Counter Ion:	Lyophilized in final buffer of 1X PBS, pH 7.4
Supplied As:	White lyophilized powder
Resuspension:	Resuspend in water at conc. of 1 mg/ml. This will give you a final of 1X PBS, pH 7.4
Storage:	-20°C
Description:	15N Uniform labeled Alpha-Synuclein (α -Synuclein) has all nitrogen's N15 labeled. α -Synuclein is a 14 kD (140 amino acids) acidic presynaptic protein. It is a major component of Parkinson's disease aggregates and is implicated in the pathogenesis of Parkinson's Disease and related neurodegenerative disorders. α -Synuclein accumulates in the brains of sporadic Parkinson's disease patients as a major component of Lewy bodies, which are intraneuronal cytoplasmic inclusions characteristic of Parkinson's disease. α -Synuclein appears to associate with other proteins that aggregate and is found in β -amyloid plaques and neuritic tangles in Alzheimer's disease ³ .
