

## **DATA SHEET**

**Product Name:** N15 Beta-Synuclein, Uniformly Labeled

Catalog #: S-1102

Recombinant. A DNA sequence encoding the human beta-synuclein Source:

sequence was expressed in E. coli, with N15 as the nitrogen source.

**Molecular Mass:** 14,452 Da theoretical

**Protein Purity:** >95% by SDS-PAGE and Mass Spec.

Counter Ion: 20mM Tris-HCI, 100mM NaCI pH 7.4

Supplied As: White lyophilized powder

Resuspend in water at conc. of .1-1 mg/ml. Recommended to briefly Resuspension:

centrifuge to ensure full resuspension of product.

Storage: -20°C

Beta-Synuclein (β-synuclein, 134 amino acids) co-localizes with α-synuclein in some brain regions but unlike  $\alpha$ -synuclein it is not found in Lewy bodies of **Description:** 

Parkinson's disease. It has been shown to inhibit the self-aggregation of  $\alpha$ -

synuclein<sup>1</sup>.
